

Scope

This policy¹ applies only at the Trust level.

Purpose

The purpose of this procedure is to establish the Trust’s responsibility for providing safety consultation resources to assist members with safety related tasks and issues, and provide the process for members to request assistance from the Trust.

Trust-Level Responsibilities

PennPRIME understands that some members do not have the ability to maintain a dedicated safety person to address health and safety concerns within their entity. To this end, PennPRIME provides qualified safety professionals to supplement member’s team. Additionally, PennPRIME has contracted with other loss control professionals that will be used to supplement the Trust’s services.
